Volume II

NEWARK STATE COLLEGE, UNION, NEW JERSEY

September 29, 1958

## Record Enrollment Increases Faculty

Twenty-four new members have been appointed to the faculty of Newark State College and nine current members of the faculty have received promotions to higher ranks. The new faculty members were obtained to take care of a record enrollment of 1200 undergraduate students. The college also has enrolled 1300 part-time graduate students and 1200 part-time undergraduate students.

Dr. Eugene D. Wilkins, President of the college, announced the promotion of the following faculty members:

Mrs. Mary Bartlett and Mr. James E. Downes from associate professor to professor; Miss Vera Minkin from assistant professor to associate professor; Mrs. Catherine Eisenhardt, Miss Dady Healy, Mr. William C. McNeice, Mr. Joseph B. Higgins, Jr., Mr. James B. Howe and Mrs. Edna Salt from assistant professor II to assistant professor I.

Dr. Wilkins also emphasized the high caliber of the new faculty appointed to the college. These new faculty members include:

Dr. Clifford L. Bush, formerly Chairman of the Department of Education at Western Reserve University, who has a similar appointment at Newark State; Dr. Robert Chasnoff, formerly Director of the Brooklyn Community School, who is to become Professor of Education and Dr. Robert F. Allen, formerly Dean of Monmouth College, who will become Professor of Education.

## There've Been Some Changes Made

Representative Robert Kean, U.S. Congressman from New Jersey, will return to the site of his ancestral home to assist in the formal dedication of Newark State College on October 4.

As a platform guest, Representative Kean will have an opportunity to greet those who convene on what was formerly the property of his father, Senator Hamilton Kean. Senator Kean's libraries, private apartments and meeting rooms still stand on the Conant Avenue side of campus and will eventually be remodeled for Newark State's use. The family home, Ursine, is situated across from Morris Avenue.

## Dedication October 4

## S.O. Launches New Programs

Under the leadership of President Tom Merics, the Student Organization of '58-'59 formed five standing committees to outline innovations for this year.

Judy Miles, soph, is chairman of the committee which will introduce SGA cards to Newark to serve as identification at social activities of NSC and other colleges.

A committee to investigate a judiciary system which will handle student problems on campus will be led by "Ike" Eisenhower, also a soph.

President Merics has assumed the chairmanship of a committee to formulate a Leadership Training Program at Newark.

A Christmas formal to be held off campus with a big name band will be under the direction of Jim Anderson, junior.

Plans for a Spring Carnival on a grand scale will be organized by the committee of Ann Gerow, senior.

Any student interested in joining these committees should contact President Merics or the individual chairmen.

## Hearing Bells?

The highlight of College Open House, September 28, was the first performance of the carillon on campus by Mr. Earl B. Collins, organist of the Munn Avenue Presbyterian Church. The carillon rang through the campus from 2:30 P.M. to 3:00 P.M. and then again from 3:30 P.M. to 4:00 P.M.

The instrument, consisting of 25 miniature bell tone generators of bronze bell metal which are struck by metal hammers, produced exact true bell tones.

The carillon which is an especially requested combination of carillonic bells and harp bells, includes an automatic hour toll which will signify the end of each class hour.

## Attention Guides

Will those who have not filed program cards please file them in the Communications Office in the College Center immediately.

OLD AND NEW: Outgoing Chairman Marc Salish, Rutgers, turns over duties to new Chairman, Jerry Minskoff.

## Minskoff Heads N. J. Region of NSA

At the first New Jersey regional meeting of the United States National Student Association on September 21, Newark State College was deemed the honor of having its NSA Coordinator, Jerry Minskoff, elected to the esteemed office of Chairman of the New Jersey region. Elected to subsequent offices were: Joe Korten, Rutgers, Vice-Chairman; Barbara Jo Smith, Douglass, Secretary; Nancy Buckley, College of St. Elizabeth, Treasurer.

## NSA At Newark

In closing out his term of office as the Regional Chairman of New Jersey's USNSA, Marc Salish of Rutgers presented the agenda for the year '58-'59, one meeting of which will take place on the Newark State campus.

The initial meeting of the year will take the form of a Leadership Conference at Douglass College on October 15 and 16. A Tri-Regional meeting is planned for November 15 and 16 also at Douglass. The International Student Relations Seminar will convene in late December or early January with the purpose of fostering a better understanding of the American college student on an international level.

Newark State will be host college at the April 11 meeting of NSA. The topics for this conference will be "Student Responsibility" and "Faculty, Student, Administration Relations."

## Gross Speaks For AAUP

The American Association of University Professors will meet on the Newark Campus on Wednesday, October 1. Dr. Mason Gross, Provost of Rutgers University, will be guest speaker.

This meeting, to which all faculty and students are invited, will take place in the conference room of the College Center at 4:00 P.M. Dr. Gross' topic will be "Higher Education in New Jersey."

Jerry, a junior in the Handicapped curriculum, has a prominence at this college which emanates from his proficiency as an organizer and leader. During his two years at Newark State, he has served in the various capacities of freshman class president, Student Organization vice-president, and assistant editor of the yearbook. These positions, coupled with his contributions to the College Center Board, Planning and Development Committee and President Wikin's Executive Board, qualify him with the experience necessary to assume the leadership of the collegiate community of the State of New Jersey.

Some of Jerry's undertakings for the year will be an attempt on the part of NSA to urge the New Jersey Legislature to increase educational aid; an arousal of student interest in international affairs; the establishment and improvement of working relations between faculty, students, and administration since their common goal should be betterment of the university.

Peter Knauss of Rutgers presented the nominating speech which cited the new chairman's record at Newark State and his outstanding performance at the USNSA Congress in Ohio. Jerry's opponent, Dorrie Brice of Fairleigh Dickinson University, was defeated by the vote of 20-8.

## Editorially Speaking:

# Brothers and Sisters: Where art Thou?

As Dedication Week and Home Coming draw near, the feeling of importance is felt throughout the entire campus. The faculty and administration have labored long and hard to plan for a successful program. They have set the ball rolling, we of the student body must give the additional momentum needed to reach that goal.

Although an appeal for individual volunteers was made by President Wilkins, there are certain groups which are tailor made for assisting in the presentation of our two major events. The members of the Sororities and Fraternities on campus are in the position to give important aid for two reasons. They have banded together for reasons of common interests and friendships and are co-ordinated harmoniously to serve efficiently.

Secondly, these groups have elected officers, who were already leaders of this college, and now find themselves in the position to receive complete cooperation and enthusiasm from their organizations. Is there a more efficient set-up to handle the important tasks, that students are responsible for, than through the cooperation of all Fraternities and Sororities of this college?

Newark State has no service sorority or frat but the opportunity to display more than a social interest in your college is now present. The merits of these organizations can be evaluated through their performances of service and helpfulness to Newark State during the following weeks. Will they profit from the opportunity that is available?

G. M.

## Snooping Reporter

QUESTION: What is your opinion of the Quemoy situation?

**JOE MARTIN '60** — I think that it is absurd what we are letting the communists do in the Far East. We of the United States should take the aggressive.

**SHELLY ROCHOWITZ '60** — The United States should not interfere in the matter of the off shore islands between the Chinese Nationalists and Chinese Communists.

**LEONARD BORNSTEIN '59** — Communist aggression has to be stopped somewhere. I don't know if this is the place.

**TERESA CAPODIFERRO '62** — We should do everything possible to maintain our national prestige. I think we should have more consideration on the part of the United States on what action should be taken. We are getting involved deeper and have no real solution in vision.

**LARRY DE FEO '59** — Ike shouldn't give an inch to the Commies.

**DIANE MITCHELL '61** — I think we should definitely aid the Nationalists if the Reds attack them.

**VINNIE MEOLA '59** — If it is our intention to defend Formosa, then we should therefore defend Quemoy.

**LUCILLE PRATT '62** — Communism must be stopped or eventually it will dominate the world.

**GENE CAMPBELL '60** — If shells continue to fall upon that island, it will surely sink.

## Sound Hounds Heaven Bound

By ROBERT TREAT

With the advent of the stereo disc the age of stereo is coming, fast and thick upon us. This is not surprising when one considers that here, for the first time, is stereo for the poor man. To illustrate; as I write this article I am listening to a stereophonic recording of Rimsky-Korsakov's Scheherazade which I purchased for \$2.98. Three months ago, in order to hear this same work stereophonically I would have to pay \$17.94 for a stereo tape. Actually I'm cheating a bit here. The record to which I'm listening is a Vanguard demonstration disk which would normally list for \$5.98 but, landsakes, that's still a savings of \$12 over the rich man's tape recording.

So what's stereo? This is a question which most people (unless they are a HI-FI bug or an audio engineer) will ask when approached on the subject. Here one can't blame the public for being confused as it was and is about ordinary single channel high fidelity. The manufacturers of legitimate hi-fi equipment have waged a long tough war with the ad men who claim that their clients' \$19 portable is hi-fi because its got two speakers.

Stereo is to your ears what 3D is to your eyes. Your eyes or ears receive two separate images or sound sources and your brain perceives depth as the stimuli merge. A friend of mine who had a Hi-fi rig but is completely innocent of its technicalities recently asked me if this is so, then why couldn't he just add another speaker at the other end of the wall and get stereo. I told him that the most formidable battery of speakers lined up against the wall wouldn't get him stereo. To cinch the argument I used this analogy. You walk into the theatre and before you is this giant screen stretching all the way across the front. There's a western playing and the Indians have surrounded the wagon train and here comes an arrow straight at you! Do you duck? I don't think so. But remember those crazy old 3D movies with the polaroid glasses? Man you ducked!!!

Well that was visual stereo. The 3D's were photographed with two separate lens, each of which had a polaroid filter over it; one passing only the light in the vertical plane, the other passing only the light in the horizontal plane. If you took your polaroid glasses off during the movie you saw only a blurry double image. When you put them on you broke this blurry matrix into two separate images which then merged in your brain giving the illusion of depth.

So it is with stereo sound. It is recorded with two microphones which are fed into two separate amplifiers.

If it's that easy then how come stereo is just now coming of age? Stereo is not new. It's been kicking around experimentally for over a quarter of a century and has been available on tape for the last six years or so. The difficulty lay in trying to get two separate signals onto a single groove. As you know the groove of an ordinary record is modulated horizontally, hence its wavy pattern. Well, in the stereo record the two signals are cut into the walls of the V shaped groove and these signals oppose each other at an angle of 45 degrees.

Here comes the hard part. How do you get two separate signals into your two amplifiers and speaker systems if you use only one needle to pick up both signals? Well there are certain types of crystals, usually quartz or a similar material, which when pressure is applied to them from the right direction, change this mechanical energy to electrical energy. This is known as the piezo-electric effect. (Fortunately the word describing the effect is of interest only to physicists and I'm giving it right back to them!)

Anyhow, at this point the needle contains a matrix of complex vibration from both signals in the groove. This might be likened to what you saw when you took off your glasses at the 3D movie. Now we take two of the crystals I spoke of and mount them in a phonograph cartridge at a 45 degree angle with the needle's shank resting on them like a baby in an upside down crib. Both of the crystals receive all the vibrations that are in the needle but each crystal will change into electrical vibrations. (Only those mechanical vibrations which move in the plane or direction to which it is sensitive) and consequently we have two separate signals once more. These electrical vibrations are then amplified separately and fed into separate speakers.

If you're tired of hearing ABOUT stereo and have a yen to hear stereo itself then get yourself over to the New York Trade Show Building where the New York Audio Fair will be holding forth from September 27th to Oct. 4th. Actually a Yen won't get you in. The admission is one dollar.

## FRESHMAN BEWARE!

This is the time of the year that is eagerly awaited by sophomores and dreaded by freshmen; naturally, its hazing. For the past two weeks, much thought and preparation has been exercised by the sophomores who remember so well their own wonderful initiation period.

Traditionally, the sophomores are the official hazers. Freshmen are expected to show due respect to ALL upperclassmen. All sophomores permitted to haze will wear uniform badges to identify themselves. The recipient of a summons must appear before the Senior Court, Wednesday, October 1, at 4:30 in the gym. Records will be kept of the summonses issued, so those freshmen who receive one are "advised" to come.

Freshmen should have received a kit and a list of instructions for hazing. Kits containing beanies and placards can be purchased from the bookstore at \$1.50. Complete instruction and procedures have been mimeographed and freshmen should have received them at the Watermelon Party.

## I.F.S., 1958-59

The Inter-Fraternity Sorority Council, which has planned many successful social affairs in the past, is looking forward to an equally great 1958-59 season.

The most current prospect is a November dance, just before Thanksgiving, but no definite date has been set.

To help make these plans a reality, the council recently met to elect the officers for the year, the results being: Joe Simons, president; Kathleen O'Connor, vice-president; Anita Hood, secretary; and Kathy Forsythe, treasurer.

The new advisor for the council is Dr. Herbert Samenfeld.

Bidding this year will be done by mail and the mailing dates will be from October 1-7. The three week tea period is October 8-29.

## Critic Derides Popularity

Is the great teacher a "popular" teacher?

Almost never, says the essayist and critic Clifton Fadiman, writing in the October issue of *Holiday* magazine.

"He is interested in something more important than winning the affections of an unending anonymous procession of young people," Fadiman says. "The 'beloved' teacher-image is part of our American sentimental mythology: it expresses our willingness to pay homage to education provided it be painless—that is, noneducational. I have long maintained that any college can raise its standards simply by firing annually whichever professor is voted 'Best Liked' by the graduating class."

Fadiman says the great teacher does not "bother to 'love' or 'understand' his students; he bothers to love their minds and understand their understandings."

## Coffee Break CCUN Style

The CCUN Coffee Break held on Tuesday, September 30, in the meeting room of the College Center gave many freshmen an opportunity to discuss with upperclassmen the purpose for the Collegiate Council for the United Nations.

Plans were laid for the organization of a model Security Council to be held in early November. The topic to be discussed will deal with international problems in the Middle East.

## FRESHMEN:

BUY

YOUR

HAZING KITS!

There is only one thing worse than the smugness and prejudices of the ignorant and that is the smugness and prejudices of the "educated." Education that does not engender a sense of humility in the student, that does not make him appallingly aware of how much there is to know that he does not know, is not true education. It is simply mental calisthenics.

From education students should acquire enough knowledge so that they need not look up at others with envy, enough wisdom so that they will not look down on others with disdain.

— Gerald Horton Bath  
Reader's Digest

## Blazers Offered In Fall

One of the first projects undertaken by the Procedures and Traditions Committee last year was the establishment of a blazer tradition at Newark State. After careful consideration as to color and quality, a blazer was selected.

The committee felt that since a new tradition was being started at a brand new campus, a new college crest should be used. A contest for the designing of this crest was conducted among the student body. The winning crest was of a striking modern design submitted by Joan Jaffe, a soph, fine arts major.

The student response to the new blazers was most gratifying. The committee was so pleased with the results that it was decided that the blazers will be offered again this fall rather than waiting for the spring. The fitting day is set for Monday, October 27. The time, location, and prices will be posted at a later date.

The blazers will be made available to the Freshman class this year in order to build up the tradition. After this year the blazers will only be made available to the three upper classes.

## Party Huge Success

"One of the greatest things the college has ever had," and "really terrific," were but a few of the things heard after the Watermelon Party held Wednesday afternoon, September 23, outside the Student Center.

After all had feasted on the delicious watermelon supplied by the sophomore class, the cheerleaders, along with many gay freshmen, added to the festivities with cheers for Newark State. The assets and liabilities of many were proven in the hula-hoop contest, won by little Janice McGinty. But was the competition rough!

The party, held for the first time this year, is expected to become one of the most enjoyable traditions at NSC.

## Worried About Senior Court?

Woe to the poor Freshmen at Newark State when they face SENIOR COURT at 3:30 P.M. on Wednesday, October 1, 1958. All Frosh who have been given a summons for misbehaving during hazing will be called before the Court to be judged guilty or innocent.

This year, Judge Joseph Simons will preside over the Court. Defending the (not-so-innocent) Freshmen will be the famous attorney, Dr. Hugh Brooks (also Social Studies instructor at N.S.C.). But beware Frosh! Prosecuting attorney will be the Seniors' number one lawyer, Mr. Marvin Gerber, and Charles Scheels will act as court clerk. Jack Gutjahr will head the jury which includes, Mary Pat Curley, Kathleen Forsythe, Carol Tidaback, Catherine Packard, Rita Katchen, Florence Bertoldo, Fran Messina, Mary Tombler, Alice Skinner, Maria Fraga, Hedi DiSessa, Vearian Sobin, Judy Thompson, Barbara Ticknor, Nancy Caola, Joan Lebovitz, Mary Young, Joan Gallagher.

These jurists promise a fair trial for every guilty Freshman; so let's all be present in the gym to watch SENIOR COURT which is under the overall direction of Nancy Dittrick and Marietta Middelstaedt.

## Nu Lambda Kappa Enlarges Membership

By FRAN MILBERGER

Nu Lambda Kappa thanks its old members for their co-operation in assembling the "Dana Review," and would like to invite all interested students of N.S.C. to join our group. The next three meetings September 30, October 7 and October 13 will be open to all. The

meeting will be in the office of Dr. Edwin Thomason (114-D), English Department Section, main wing of Townsend Hall, Club Hour, the 8th on Tuesday. If it is impossible for you to come at this time please contact Dr. Thomason and something will be worked out.

Nu Lambda Kappa is a group designed to stimulate interested people who have had experience in writing as well as those who, although not proficient, are interested in writing stories, reviews, poetry, prose and anything else of a creative nature. Our purpose is to discuss as a group, individual work stimulate ideas for future writing, acquire techniques and pointers necessary for good creative writing. Dr. Thomason of the English Department, as advisor, offers a wealth of instrumental as well as creative material to achieve this end.

Nu Lambda Kappa publishes a magazine called the "Dana Review" which incorporates the creative writing of the whole student body. This year it might be possible to publish two magazines, which will require a larger staff and more material. We would like the student body to submit creative writings as well as cartoon strips and other art work to either Dr. Thomason, Fran Milberger, Robert Treat or anyone else associated with Nu Lambda Kappa. It is necessary to be a member of Nu Lambda Kappa to have your work published in the "Dana Review."

We would like to see the "Dana Review" better with each issue and we hope everyone will participate to achieve this end.

## Soph Ghosts

### Haunt Annex

Newark State's annex on Broadway, Newark, is quite desolate despite the fact that many of the sophomores are attending classes there.

All G.E. and E.C. sophomores were required to have a combination of the classes of psychology and music or history and music at the annex. This arrangement was made so that many more freshmen would be accommodated at the Union campus this year.

The original plan was that sophomores would spend two days at Newark and three at Union. Nevertheless, many must go to both schools in the same day.

There is one consolation, however. There's plenty of room in the Tudor Room!

## Tea Anyone?

Newman Club President, John Greco, has announced that the first meeting of all the members will be held Sept. 30, at 4:30. At this time a tea will be given to welcome the freshmen and the old members.

Newark State is also going to be host for the 1958 convention of the New Jersey Province of the National Newman Club Federation, being held at Seton Hall, November 2. All this and more will be discussed at the first meeting. Come one, come all.

There's a nice thing about this course...you buy only one book.

## Scuttlebutt

### THE NEW LOOK !!!

Newark State's basketball team will be sporting a new look this year. New uniforms were designed to stress the school's colors of silver and grey. The style and type of uniforms worn will be those recommended by last year's varsity players with Archie Chiles as chairman. The team will be wearing U.C.L.A. type, quarter sleeve shirts with semi-elastic boxer trunks. Knee socks will also be worn for the first time in the school's history. The new look is capped by a standard warm up suit with a sailor type collar.

We expect the team to live up to its good looks and play as good a brand of basketball.

\* \* \*

### THE VARSITY CLUB

With the increased enrollment at Newark State College, there will also be a larger athletic program. Naturally, with an athletic program there are men of our school who have won, and who will win varsity letters, because of their skill in a particular sport. These men are proud of their letters and their school. It is because of this pride that we think a Varsity Club should be formed on our new campus.

Since this club would be like a fraternal organization, the desire to win a varsity letter would undoubtedly be greater. The club would increase interest in athletics and also increase school spirit. This organization for varsity letter winners would also bring the future alumni back to the college because — "once a member, always a member." This will mean a lasting interest in athletics and a constant reminder of their alma mater.

The forming of an organization such as this will be a definite asset to the school. What do you think?

\* \* \*

### WHO PLANS THE SPORTS ACTIVITIES ??

Most of you by now are familiar with the Athletic Committee in this school. Carol Tidaback, President of the A.C., has passed along to you some of the more important things done by this committee. I'm sure there is no need to mention the activities once more. This is the only group on campus that has a say in the athletic program presented to you. Don't you think you should supply this organization with some of your ideas? JOIN THE A.C. and make your college days more interesting to all.

## CALENDAR OF WEEK'S EVENTS

### MONDAY, SEPTEMBER 29

TREASURERS' MEETING	3:30 P.M.	Meetings Room
Student Organization, clubs, classes and organizations		
DISTRIBUTION OF ACADEMIC GOWNS TO SENIORS	2:30 P.M.	Dance Studio
FRESHMAN HAZING	All Day	On Campus
CHEERLEADER TRYOUTS	3:30 P.M.	Gym

### TUESDAY, SEPTEMBER 30

FRESHMAN HAZING	All Day	On Campus
SOPHOMORE CLASS MEETING	8:30 A.M.	Little Theater
NEWMAN CLUB TEA	4:30 P.M.	Meetings Room
NU THETA CHI SORORITY	4:30 P.M.	College Center
RHO THETA TAU SORORITY	4:30 P.M.	College Center

### WEDNESDAY, OCTOBER 1

FRESHMAN HAZING	All Day	On Campus
SENIOR COURT	3:30 P.M.	Gym
AMERICAN ASSN. OF UNIVERSITY PROFESSORS	4:00 P.M.	Meetings Room

### FRIDAY, OCTOBER 3

FACULTY MEETING	2:30 P.M.	Little Theater
-----------------	-----------	----------------

All those interested in having events scheduled on the weekly calendar must leave meeting notices in the REFLECTOR mailbox.

### SCHEDULE OF FRESHMAN HAZING

Tradition says that there shall be a period of hazing for all college freshmen. Here at N.S.C. it is not our aim to abuse or make fun of freshmen but rather to become well acquainted with you as quickly as possible. We believe that if the freshmen and sophomores will cooperate with the following rules as formed by the Hazing Committee, every member of the freshmen class will feel at home in no time at all.

1. Freshmen are to buy a college cap, one college pencil, and one sheet of oaktag to make placards as described below. These will be bought as a kit for \$1.50 on Thursday and Friday, September 25, 26, between the hours of 12:00 p.m. and 3:30 p.m. in the College Center.

2. There will be three days of Freshman Hazing — Monday, Tuesday, and Wednesday, September 29, 30, and October 1st. During this period, all freshmen are to observe the following regulations:

- Wear college caps at all times while on campus and in the college building.
- On sheet of oaktag print the following in large letters:
  - Name and high school graduated from.
  - The signatures of 50 upperclassmen due on October 1st. (The freshman must give satisfactory reasons for his qualifications as a N.S.C. student to the signee. To be valid, the signature must be written with the college pencil.)
- Carry Student Handbook at all times.
- Walk in groups of three at all times.
- Tip cap to any upperclassman who addresses you by name.
- Any sophomores who are wearing their name tags may ask the freshmen to sing the Alma Mater in groups of not less than three.
- During the three days of freshman hazing, freshmen are not allowed to wear either gray or blue (which are the college colors) or silver jewelry.
- Freshmen are to hold doors open and at all times allow the faculty and upperclassmen to pass through the entrances first.
  - At the beginning of each class, freshmen will rise, bow, and say "good morning" or "good afternoon" to the instructor.
  - Must know all rules found in Student Handbook; such as rules for smoking, care of buildings, parking, etc.
  - Freshmen will not be allowed to enter the Lounge in the College Center.
    - Whenever an upperclassman enters a classroom late the freshmen present must rise.
  - There will be a number of WARDENS to enforce these regulations. All Wardens will be designated by an armband with the word "Warden" on it.
  - If any of the above rules are not observed, Wardens will give out summonses to the freshmen concerned. The freshmen must then appear before the Senior Court. The Senior Court will meet in the Gym unless otherwise indicated on the bulletin board after classes on the third day of hazing.
  - If an upperclassman asks you to do something not listed in the foregoing rules, it is your right and duty to report said upperclassman to the nearest Warden and have him summoned to the Senior Court.
  - Wednesday, October 1, is the last day of hazing.
  - All sophomores are requested to wear a name tag provided by the committee. Only those wearing these tags will be allowed to haze. Freshmen are expected to extend greeting to all other upperclassmen whether they are wearing name tags or not.
  - The Sophomore Class sincerely welcomes every freshman to the student family.
